

MULTI WIRE SOLDERING MACHINE

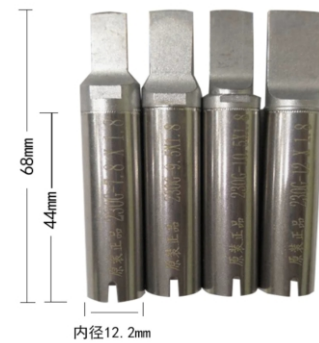

TOKii[®]

MODEL: TOKii-MSR230

FEATURE

- Increase productivity and fast soldering of multiple wire in on stroke.
- Semi-Automatic soldering machine
- Equipped with 330G welding station 230 watt
- Drive type: pneumatic/electric optional
- Input voltage: AC220V
- Power: 230W
- Pneumatic Input: 0.4 - 0.8 Mpa
- Temperature regulation range: 50-600 °C
- Temperature accuracy no load :+/- 2 °C
- Weight: 15KGS
- Boundary dimension: 500X 550 X 600mm

SOLDERING IRON TIP

Standard size:

- W 7.8- T1.8,
- W 9.5- T1.8,
- W 10.5-T1.8,
- W 12-T1.8 mm

Other custom size available with
MOQ 10 nos.
